OUR MISSION

Bongai Shamwari ECC
Sholarship Program

We believe that each child should
have the same chances to start in life ...

... regardless of their race, economical or physical situation.

Our mission is to provide opportunities for eligible children to get quality early education. A quality pre-school education helps children to build self-confidence, learn social skills and develop a life-long passion for learning.

These form a strong foundation for a child's future. Unfortunately, many families may not be able to afford pre-school. Including those who have disadvantages and disabilities, like handicapped or neglected children or orphans, is the basic principle for the concept of Bongai Shamwai.
